APPENDIX B: Instructions and Survey Instruments for California Community Colleges.	103
INDEX OF INSTITUTIONS	117

PREFACE

The following inventory lists the off-campus facilities used by California's 440 public and private colleges and universities in the fall of 1980 to offer courses leading to their degrees and certificates. For California's 106 Community Colleges, it also includes off-campus facilities where students can take non-credit courses supported by State funds. Because some of these facilities and program offerings have changed since 1980, readers interested in a particular location or program should check with the sponsoring institution to verify current offerings.

Elements of the Inventory

Information in the inventory is arranged as follows:

INSTITUTION, OFF-CAMPUS FACILITY, AND LOCATION: Institutions are listed in six sections: (1) the University of California (page 1); (2) the California State University (pp. 2-6); (3) the California Community Colleges (pp. 7-62); (4) Other Public Colleges and Universities (page 62); (5) Accredited Independent Colleges and Universities (pp. 62-80); and (6) Non-Accredited Independent Colleges and Universities (pp. 80-86). Specific page numbers for all institutions that responded can be found in the index on pp. 117-118.

For each institution, the names of its off-campus facilities are listed together with their city -- unless the name of the city is contained in the facility title, such as "Los Angeles City Hall" or "Ventura Learning Center." Zip codes are also included wherever they do not require an extra line of type.

The off-campus facilities for each institution are listed beginning with those where students cannot take half of the courses required for a degree or certificate from the institution, followed by those offering enough courses to form at least half of those required in a degree or certificate program. The latter facilities are listed in order of increasing number of such programs that they offer.

COURSE REGISTRATIONS or CREDIT REGISTRATIONS. This item reports the total number of student registrations in courses offered for credit at the facility during the Fall 1980 term.

UNDERGRADUATE COURSES and GRADUATE COURSES (for four-year colleges and universities only): These items indicate the number of courses and course sections offered either for undergraduate credit or for graduate credit.

CREDIT COURSE SECTIONS (for California Community Colleges only): This item indicates the number of credit course sections offered for credit as defined in Title 5 of the California Administrative Code.

NON-CREDIT REGISTRATIONS IN STATE-SUPPORTED COURSES (for California Community Colleges only): This item includes the total number of student registrations in non-credit courses for which any unit of Average Daily Attendance (ADA) was claimed for State apportionment purposes.

STATE-SUPPORTED NON-CREDIT COURSE SECTIONS (for California Community Colleges only): This item covers the number of non-credit course sections, regardless of length or format, for which any unit of ADA was claimed.

ACADEMIC AREA OF ANY PROGRAM WHERE AT LEAST HALF THE REQUIREMENTS CAN BE COMPLETED AT THE FACILITY: For those programs in which students can take at least half of the courses required for a degree or certificate, this item reports the general topic or area of knowledge of the program.

LEVEL OF PROGRAM: This item indicates the degree or certificate to which the program leads. Among the terms used are these:

"Short Cert." -- A program requiring less than one year of full-time study to complete.

"Certificate" -- A program requiring at least a year of full-time study to complete.

"Cont. Ed." -- A non-degree program of continuing professional education, typically at the postgraduate level.

"Fifth Year" -- A master's degree-level program of instruction in teacher education.

REQUIREMENTS THAT CAN BE COMPLETED AT THE FACILITY: This final item indicates the general proportion of all requirements for the degree or certificate that students can fulfill at the off-campus facility:

"Half" -- Students can complete between 50 and 95 percent of these requirements at the facility.

"All" -- Students can complete between 96 and 100 percent of the requirements at the facility.

Locations Not Included in the Inventory

Not included on the following pages are these off-campus facilities:

1. Those operated by non-degree granting postsecondary institutions, such as adult schools and technical institutes.
2. Those operated in California by colleges and universities headquartered outside California (the next inventory will seek to include these facilities and their programs).
3. Those operated outside California by California colleges and universities, such as those in eastern states or foreign countries.
4. Those offering only non-credit self-support (rather than State-supported) courses, such as by University Extension.
5. Those offering only student teaching residencies, health science practicums, clinical training or internships as part of the requirements for courses conducted on campus.
6. And those operated under contract on California military bases whose total costs are paid for by the military service.

Origins of the Inventory

Information for the inventory was submitted to the California Postsecondary Education Commission by institutions in response to the Commission's Fall Term 1980 survey of off-campus locations and programs. (Appendices A and B on pp. 87-116 reproduce sample forms from the survey.)

The Commission undertook its 1980 survey to fulfill its mandate to "maintain and update annually an inventory of off-campus programs and facilities for education, research, and public service operated by public and private institutions of postsecondary education" (Education Code Section 66903[13]). The 1980 survey was the third in this series. A December 1981 staff report from the Commission, "Recent Trends in Off-Campus Education," summarizes findings from the 1976, 1978, and 1980 surveys and notes trends over the four-year period in off-campus course and program offerings. Copies of that report are available without charge from the Commission.

The Commission's fourth survey of off-campus locations is scheduled for fall 1982. An updated inventory is planned for publication in 1983.

Sample Entry of a Four-Year College or University

The name of the segment and institution	The total number of registrations in credit courses at the facility during the Fall 1980 term	The number of undergraduate courses offered	The number of graduate courses offered	The general topic of the program	The level of the program	The proportion of program requirements that can be met at the facility
CALIFORNIA STATE UNIVERSITY						
BAKERSFIELD						
Bank of America, Bishop 93514.	210	5	4			
Monache High School, Porterville 93257	24	2	0	Education	Master	Half
County Education Building, Visalia 93277	12	0	1	Ed. of Culturally Disad.	Master	All
China Lake Naval Weapons Center, 93555	127	2	2	Liberal Arts & Sciences	Bachelor	Half
				Business & Commerce	Bachelor	All
	47	1	1	Public Administration	Master	All

Facilities offering at least half the requirements for two degree programs.

A facility offering at least half the requirements for a master's degree in education.

A facility offering less than half the requirements for a degree or certificate.

Sample Entry of a Community College

The name and location of the community college	The total number of registrations in credit courses at the facility during the Fall 1980 term	The number of course sections offered for credit	The total number of registrations in non-credit courses	The number of non-credit course sections	The general topic of the program	The level of the program	The proportion of program requirements that can be met at the facility
COLLEGE OF THE SEQUOIAS, Visalia 93230	97	28	0	0			
Orosi High School, 93647	14	1	0	0			
Strathmore High School, 93267	17	1	0	0			
Tulare High School, 93274	55	2	0	0

APPENDIX A

Instructions and Survey Instruments for the
University of California, California State University,
and Independent Colleges and Universities

INSTRUCTIONS FOR THE FALL TERM 1980
INVENTORY OF OFF-CAMPUS LOCATIONS AND PROGRAMS
UNIVERSITY OF CALIFORNIA,
CALIFORNIA STATE UNIVERSITY AND COLLEGES,
AND INDEPENDENT COLLEGES AND UNIVERSITIES

In alternate years, the California Postsecondary Education Commission surveys all public and independent institutions of higher education, both public and private, to determine the extent of their off-campus programs and facilities. The survey is mandated by Section 66903 of the Education Code:

Section 66903. The Commission shall have the following functions and responsibilities in its capacity as the statewide postsecondary planning and coordinating agency and adviser to the Legislature and Governor:

- (13) It shall maintain and update annually an inventory of all off-campus programs and facilities for education, research, and community service operated by public and private institutions of postsecondary education.

While this year's forms are very similar to those used for the Fall 1978 survey, there are a few significant differences. First and most important, institutions will no longer be asked to fill out a separate form for locations offering only non-credit courses. Instead, each campus will be asked to submit a form (Form No. 3) showing the total number of non-credit courses at all off-campus locations together with a total for course registrations in those courses. Second, figures for unduplicated headcount are no longer requested. Third, a space has been added to indicate whether a particular off-campus location has an on-site administrator. Fourth, whereas the 1978 forms contained a sheet in which all locations with two or fewer courses could be summarized, the current survey calls for a separate form to be completed for each location offering at least one credit course or at least one State-supported, non-credit course.

GENERAL INSTRUCTIONS

This year's survey contains three forms for each campus. Form No. 1 asks for the name and location of every off-campus operation that offers at least one credit course. Form No. 2 is to be filled out for each location which offers at least one program. It asks for the title of each program (as defined in these instructions), the level of the program (graduate or undergraduate), and the type of degree or certificate awarded. If a location does not offer any programs, Form

No. 2 need not be filled out for that location. Form No. 3 asks for institutional totals for all off-campus, non-credit offerings.

Other general instructions are as follows:

- (1) Please be as complete as possible in filling out all forms. In cases of uncertainty, provide your best estimate. If your response is an estimate, please mark an (E) next to the response.
- (2) If your institution offers off-campus courses in the health sciences, list only those locations at which complete health science courses or programs are offered. Do not include those off-campus locations at which health science practicums, clinical training or internships were offered as part of the requirements for courses offered on campus.
- (3) Only those locations within the State of California should be listed. Any locations outside of the State or outside of the country should not be listed.

Please return the forms to:

Mr. William L. Storey
California Postsecondary
Education Commission
1020 12th Street
Sacramento, California 95814

SPECIFIC INSTRUCTIONS AND EXPLANATION OF FORMS

On all forms, please provide the name of the parent institution or main campus reporting, the name of the individual completing the form, and that individual's telephone number, including area code.

FORM NO 1 - Instructions for Completion

This form is to be used to identify individual off-campus locations at which at least one credit course was offered during the Fall 1980 term. A credit course is defined as any organized course offering for which any credit is awarded towards any degree awarded by the institution. In completing Form No. 1, please reproduce the form as many times as may be necessary to include all off-campus locations.

Spaces 1-6, Institution I.D. No.: These spaces indicate the Commission's code for your institution.

Space 7, Form No.: This space indicates the number of the form.

Spaces 8-10, Location Number: Each off-campus location should be numbered sequentially. For example, if your institution maintained five locations during the Fall 1980 term, five separate copies of Form No. 1 should be completed. Start the sequential numbering with 001. In this example, the five locations would be numbered 001, 002, 003, 004, and 005.

Spaces 11-31, Facility Name: Indicate the name of the off-campus facility. Abbreviate if necessary but do not include punctuation such as periods in abbreviated words. Place the first character in the space at the far left (No. 11). Leave a space between words. Since the facility will be identified by these twenty-one (or fewer) characters, some care should be taken that the letters used clearly establish the identity of the facility. For example:

[W	:	S	:	T	:		:	S	:	T	:	R	:		:	M	:	U	:	N	:	I	:		:	C	:	E	:	N	:	T	:	E	:	R	:		:		
[:		:		:		:		:		:		:		:		:		:		:		:		:		:		:		:		:		:		:		:		:
	11																																									31

Spaces 32-36, Zip Code: Indicate the Zip Code area in which the facility is located.

Spaces 37-38, Type of Facility: From the following list, designate the facility code which best describes the type of facility in which the off-campus course or program is housed:

- 1) Facility on another college or university campus
- 2) Elementary or secondary school facility
- 3) Church
- 4) Military Base
- 5) Hospital
- 6) Public Library
- 7) Storefront or business concern
- 8) Local, state, or federal government office building
- 9) Other business facility
- 10) Prison or correctional facility
- 11) Museum
- 12) Hotel, motel, or inn
- 13) Recreational facility
- 14) Other type of facility
- 15) Industrial plant
- 16) Business or commercial office building

Space 39, Owner: From the following list designate the facility ownership status code which best fits the location.

- (1) Owned by the institution. This category includes: (a) ownership in fee simple; (b) a title vested in the institution and being paid for on an amortization schedule (regardless of whether the building is shared with another institution or organization); or (c) a title vested in a holding company or building corporation to which payments are being made by the institution with title ultimately passing to the institution (e.g., lease-purchase agreements).
- (2) Not owned by the institution, but leased or rented.
- (3) Not owned by the institution, but made available to the institution at no cost. This category also includes facilities shared with another institution or organization, educational or otherwise. If only a token charge is paid for the use of the facility, it should be designated here rather than as (2) above

Spaces 40-41, Year Established: Indicate the last two digits of the year in which instruction was first initiated at the off-campus location (i.e., 1975--write in 75).

Space 42, Continuation: Indicate whether you expect instruction to continue at this location during the 1981-82 year.

- 0 - No
- 1 - Yes
- 2 - Uncertain

Space 43-45, Distance: For each location, indicate the approximate number of miles commuting distance (one way) from the off-campus location to the parent campus. If the number of miles is less than ten, use two zeros in front of the number (e.g., 001, 004, 009, etc.). If the number is 10 to 99 miles, use one zero in front of the number (e.g., 017, 042, 089, etc.).

Space 46, On-Site Administrator: If an administrator is physically present at the off-campus location (one-half time or more), please place a "1" in the space. If an administrator is present for less than half time or not at all, place a "0" in the space.

Spaces 47-49, Total Credit Course Sections: Indicate the total number of credit courses offered at the off-campus location during the Fall 1980 term. All courses and course sections, offered for credit, regardless of length, format, or unit value should be included in the total.

Spaces 50-52, Graduate Course Sections: Of the total number of credit courses reported in Space 47-49, give the number of course sections offered at the graduate level. The determination of level should be based on the level of instruction, not on the level of student taking the course.

Spaces 53-55, Undergraduate Course Sections: Of the total number of credit courses reported in Spaces 47-49, give the number of course sections offered at the undergraduate level. As with the instructions for Spaces 50-52, the determination of level should be based on the level of instruction, not on the level of student taking the course. Thus, even if the majority of students taking the course are graduate students, if the course is designed to be an undergraduate course, it should be listed as an undergraduate course.

Spaces 59-63, Total Credit Registrations: Indicate the total number of course registrations for the credit courses reported in Spaces 47-49.

NOTE: BE SURE THAT THE TOTAL NUMBER OF COURSE SECTIONS LISTED IN SPACES 50-52 AND 53-55 ADD UP TO THE TOTAL NUMBER OF COURSE SECTIONS LISTED IN SPACES 47-49.

FORM NO 2 - Instructions for Completion

This form is to be used to identify the locations reported on Form No. 1 at which at least 50 percent of the requirements for a degree or certificate can be completed. It is not necessary that all of the courses be offered during any single term. All that is required is that a student can complete at least 50 percent of the requirements for a degree over a period of time. At such locations, please identify all programs in the manner provided for below.

If certificate and/or degree programs are offered at more than one location, and/or any location offers more than eleven programs, reproduce Form No. 2 as necessary. Be sure to include the location number on all sheets submitted.

Spaces 1-6, Institution I.D. No.: These spaces indicate the Commission's code for your institution.

Space 7, Form No.: This space indicates the number of the form.

Spaces 8-10, Location No.: The location number to be inserted on Form No. 2 should correspond to that given on Form No. 1. In this way, it becomes unnecessary to repeat the name of the location in question. For example, if seventeen locations were reported on Form No. 1 and at only locations 008 and 014 could 50 percent or more of

the requirements for a degree or certificate be completed, a Form No 2 should be completed for each of these locations with the number 008 on one form and 014 on the other.

Spaces 11-76, Certificate or Degree Programs: The bracketed lines on Form No. 2 contain six spaces and are to be used to indicate the certificate and/or degree programs offered at each location to be reported. The first four spaces (e.g., Spaces 11-14, 35-38, etc.) are to be used to report the HEGIS subdiscipline number (see enclosed taxonomy), the fifth space to show the level of the program (see table below), and the sixth space to indicate whether the program can be fully or partially completed at that location. If 50 to 95 percent of the program can be completed at the location, write a "1" in the sixth space. If 96 to 100 percent of the program can be completed at the location, write a "2" in the sixth space.

Program level categories are as follows:

1. Certificate--Requiring less than one year of full-time study 1/ to complete
2. Certificate--Requiring one or more years of full-time study 1/ to complete
3. Fifth year of teacher education 2/
4. Associate Degree
5. Bachelor's Degree
6. Master's Degree
7. Doctorate Degree
8. Professional Continuing Education

Every effort should be made to incorporate programs into the HEGIS subdisciplines. To give two examples, Case No. 1 indicates a location offering a bachelor's degree program in accounting where it is possible to satisfy between 50 and 95 percent of the degree requirements. Case No.2 shows a certificate program in automotive technology where all of the requirements of the program can be completed at the location with the equivalent of at least one year of full-time study.

1/ "Full-Time Study" means an on-campus equivalent. In other words, if the program would normally be completed on campus in less than one year, a "1" should be indicated.

2/ If the fifth year of instruction in teacher education is conducted on campus, do not count off-campus student teaching as being an off-campus program. Only if the course work is conducted at the off-campus location should the fifth year be counted on this form.

EXAMPLES:

Case No. 1

$$\left[\begin{array}{cccccc} 0 & : & 5 & : & 0 & : & 2 & : & 5 & : & 1 \\ \hline 11 & & & & 14 & & 15 & & 16 \end{array} \right]$$

Case No. 2

$$\left[\begin{array}{cccccc} 5 & : & 3 & : & 0 & : & 6 & : & 2 & : & 2 \\ \hline 35 & & & & 38 & & 39 & & 40 \end{array} \right]$$
FORM NO. 3 - Instructions for Completion

last line 57

Form No. 3 is a summary sheet designed to produce gross totals for non-credit offerings at each campus without the necessity of generating detailed data for each location. Form No. 3 need not be reproduced since all of the information will be for campuswide totals. Thus, each four-year college or university will submit only a single copy of Form No. 3 giving overall totals for off-campus, non-credit offerings.

Spaces 1-6, Institution I.D. No.: These spaces indicate the Commission's code for your institution.

Space 7, Form No.: This space indicates the number of the form.

Spaces 8-10, Total Number of Locations Offering Only Non-Credit Courses: These spaces are to include the total number of off-campus locations offering at least one non-credit course. If there are four such locations, for example, please enter 004 in these spaces. If there are fifteen such locations, please enter 015.

Spaces 11-14, Total Number of Non-Credit Courses at all Off-Campus Locations: These spaces are to include the total number of non-credit courses offered at all off-campus locations combined. All off-campus, non-credit offerings, regardless of length or format should be included. In determining whether a course is non-credit, the critical factor should be the design of the course.

Spaces 15-19, Total Number of Non-Credit Registrations at all Off-Campus Locations: These spaces are to include the total number of registrations in non-credit courses offered at all off-campus locations combined. All students enrolled in off-campus, non-credit courses, should be included in this total.

Thank you for your cooperation in completing the forms. The information you provide will be of great assistance in planning for postsecondary education in the coming several years. Should you need any assistance in completing the forms or need further information, please contact either William Storey or Sam Kipp at the Commission's offices in Sacramento. The telephone number is (916) 445-7933.

APPENDIX B

Instructions and Survey Instruments for the California Community Colleges

INSTRUCTIONS FOR THE FALL TERM 1980
INVENTORY OF OFF-CAMPUS LOCATIONS AND PROGRAMS
CALIFORNIA COMMUNITY COLLEGES

In alternate years, the California Postsecondary Education Commission surveys all public and independent institutions of higher education, both public and private, to determine the extent of their off-campus programs and facilities. The survey is mandated by Section 66903 of the Education Code:

Section 66903 The Commission shall have the following functions and responsibilities in its capacity as the statewide postsecondary planning and coordinating agency and adviser to the Legislature and Governor:

- (13) It shall maintain and update annually an inventory of all off-campus programs and facilities for education, research, and community service operated by public and private institutions of postsecondary education.

While this year's forms are very similar to those used for the Fall 1978 survey, there are a few significant differences. First, figures for unduplicated headcount are no longer requested. Second, the Community Colleges are no longer requested to submit totals for Weekly Student Contact Hours (WSCH). Third, a space has been added to indicate whether a particular off-campus location has an on-site administrator. Fourth, whereas the 1978 forms contained a sheet in which all locations with two or fewer courses could be summarized, the current survey calls for a separate form to be completed for each location offering at least one credit course or at least one State-supported, non-credit course.

GENERAL INSTRUCTIONS

This year's survey contains two forms for each Community College. Form No. 1 requests information for the total number of both credit and non-credit courses and for the number of non-credit courses that are State supported and self-supported, as defined. It also asks for a breakdown of State-supported and self-supported non-credit registrations and the total number of credit registrations. Form No. 2 is to be filled out for each location which offers at least one program. It asks for the title of each program (as defined in these instructions), the level of the program (graduate or undergraduate), and the type of degree or certificate awarded. If a location does not offer any programs, Form No. 2 need not be filled out for that location.

Other general instructions are as follows:

- (1) Please be as complete as possible in filling out all forms. In cases of uncertainty, provide your best estimate. If your response is an estimate, please mark an (E) next to the response.
- (2) If your institution offers off-campus courses in the health sciences, list only those locations at which complete health science courses or programs are offered. Do not include those off-campus locations at which health science practicums, clinical training or internships were offered as part of the requirements for courses offered on campus.
- (3) Only those locations within the State of California should be listed. Any locations outside of the State or outside of the country should not be listed.

Please return all forms to:

William L. Storey
California Postsecondary
Education Commission
1020 12th Street
Sacramento, CA 95814

SPECIFIC INSTRUCTIONS AND EXPLANATION OF FORMS

On all forms, please provide the name of the parent institution or main campus reporting, the name of the individual completing the form, and that individual's telephone number.

FORM NO. 1 - Instructions for Completion

This form is to be used to identify individual off-campus locations at which at least one credit or non-credit course was offered during the Fall 1980 term. The definitions of credit and non-credit courses contained in Title 5 of the California Administrative Code should be used. In completing Form No. 1, please reproduce the form as many times as may be necessary to include all off-campus locations.

Spaces 1-6, Institution I.D. No.: These spaces indicate the Commission's code for your institution.

Space 7, Form No.: This space indicates the number of the form.

Spaces 8-10, Location Number: Each off-campus location should be numbered sequentially. For example, if your institution maintained

(regardless of whether the building is shared with another institution or organization); or (c) a title vested in a holding company or building corporation to which payments are being made by the institution with title ultimately passing to the institution (e g., lease-purchase agreements).

- (2) Not owned by the institution, but leased or rented.
- (3) Not owned by the institution, but made available to the institution at no cost. This category also includes facilities shared with another institution or organization, educational or otherwise. If only a token charge is paid for the use of the facility, it should be designated here rather than as (2) above.

Spaces 40-41, Year Established: Indicate the last two digits of the year in which instruction was first initiated at the off-campus location (i.e., 1975--write in 75).

Space 42, Continuation: Indicate whether you expect instruction to continue at this location during the 1981-82 year

- 0 - No
- 1 - Yes
- 2 - Uncertain

Spaces 43-45, Distance. For each location, indicate the approximate number of miles commuting distance (one way) from the off-campus location to the parent campus. If the number of miles is less than ten, use two zeros in front of the number (e g., 001, 004, 009, etc.). If the number is 10 to 99 miles, use one zero in front of the number (e g., 017, 042, 089, etc.)

Space 46, On-Site Administrator: If an administrator is physically present at the off-campus location (one-half time or more), please place a "1" in the space. If an administrator is present for less than half time or not at all, place a "0" in the space.

Spaces 47-49, Total Credit Course Sections Indicate the total number of credit course sections (as defined in Title 5 of the California Administrative Code) offered at the off-campus location during the Fall 1980 term.

Spaces 59-63, Total Credit Registrations. Indicate the total number of course registrations for the credit courses reported in Spaces 47-49.

Spaces 56-58, Total Non-Credit Course Sections. Indicate the total number of non-credit course sections offered at the off-campus location during the Fall 1980 term. All organized course offerings given on a non-credit basis (as defined by Title 5 of the California Administrative Code), regardless of length or format should be included in the total.

Spaces 64-66, State-Supported Course Sections. Of the total number of non-credit course sections reported in Spaces 56-58, give the total for which any units of average daily attendance (ADA) are claimed for State apportionment purposes.

Spaces 67-69, Self-Supported Course Sections: Of the total number of non-credit courses reported in Spaces 56-58, give the total for which no units of ADA are claimed for State apportionment purposes

NOTE. BE SURE THAT THE TOTAL NUMBER OF COURSE SECTIONS LISTED IN SPACES 64-66 AND 67-69 ADD UP TO THE TOTAL NUMBER OF COURSE SECTIONS LISTED IN SPACES 56-58

Spaces 70-74, Non-Credit Registrations in State-Supported Courses: List the total number of registrations in non-credit courses for which any unit of ADA are claimed for State apportionment purposes.

Spaces 75-79, Non-Credit Registrations in Self-Supported Courses: List the total number of registrations in non-credit courses for which no units of ADA are claimed for State apportionment purposes. Any students in non-credit courses that are not being claimed as ADA for any reason, should be included in this total

FORM NO. 2 - Instructions for Completion

This form is to be used to identify the locations reported on Form No. 1 at which at least 50 percent of the requirements for a degree or certificate can be completed. It is not necessary that all of the courses be offered during any single term. All that is required is that a student can complete at least 50 percent of the requirements for a degree over a period of time. At such locations, please identify all programs in the manner provided for below.

If certificate and/or degree programs are offered at more than one location, and/or any location offers more than eleven programs, reproduce Form No. 2 as necessary. Be sure to include the location number on all sheets submitted.

Spaces 1-6, Institution I.D. No.: These spaces indicate the Commission's code for your institution.

Space 7, Form No. This space indicates the number of the form

Spaces 8-10, Location No. The location number to be inserted on Form No. 2 should correspond to that given on Form No. 1. In this way, it becomes unnecessary to repeat the name of the location in question. For example, if seventeen locations were reported on Form No. 1 and at only locations 008 and 014 could 50 percent or more of the requirements for a degree or certificate be completed, a Form No. 2 should be completed for each of these locations with the number 008 on one form and 014 on the other

Spaces 11-76, Certificate or Degree Programs. The bracketed lines on form 2 contain six spaces and are to be used to indicate the certificate and/or degree programs offered at each location to be reported. The first four spaces (e.g., Spaces 11-14, 35-38, etc.) are to be used to report the HEGIS subdiscipline number (see enclosed taxonomy), the fifth space to show the level of the program (see table below), and the sixth space to indicate whether the program can be fully or partially completed at that location. If 50 to 95 percent of the program can be completed (programs where less than 50% can be completed should not be reported) at the location, write a "1" in the sixth space. If 96 to 100 percent of the program can be completed at the location, write a "2" in the sixth space.

Program level categories are as follows:

- 1 Certificate--Requiring less than one year of full-time study* to complete
- 2 Certificate--Requiring one or more years of full-time study* to complete
- 3 Associate Degree

Every effort should be made to incorporate programs into the HEGIS subdisciplines. To give two examples, Case No. 1 indicates a location offering an Associate Degree program in real estate where it is possible to satisfy 50 to 95 percent of the degree requirements. Case No. 2 shows a certificate program in automotive technology which requires less than one year of full-time study and for which all requirements of the program can be completed at the off-campus location.

*"Full-Time" study means an on-campus equivalent. In other words, if the program would normally be completed on campus in less than one year, a "1" should be indicated.

EXAMPLES.

Case No. 1

$$\left[\begin{array}{cccccc} 0 & 5 & 1 & 1 & 3 & 1 \\ \hline & & & & & \end{array} \right]$$

Case No. 2

$$\left[\begin{array}{cccccc} 5 & 3 & 0 & 6 & 1 & 2 \\ \hline & & & & & \end{array} \right]$$

Thank you for your cooperation in completing the forms. The information you provide will be of great assistance in planning for postsecondary education in the coming several years. Should you need any assistance in completing the forms or need further information, please contact either William Storey or Sam Kipp at the Commission's offices in Sacramento. The telephone number is (916) 445-7933.
